[SDGs 1] No Poverty

[1.3.5] Does your university as a body have schemes to support poor students from low income countries (e.g. offering free education, grants)?

NCUT is committed to supporting economically disadvantaged students through a comprehensive system of financial aid, scholarships, and other forms of assistance. The university ensures that these students, including those with disabilities or delayed graduation, have the necessary resources to pursue their education without being hindered by financial difficulties. Here are some key initiatives and mechanisms NCUT has in place:

Financial Aid and Scholarships

1. Annual Scholarships and Bursaries:

- NCUT allocates NT\$50 million per year for various scholarships and bursaries aimed at easing the financial burden on disadvantaged students, helping them concentrate on their academic goals.

2. Off-Campus Student Aid Integration:

- The university collaborates with external organizations for additional donations and subsidies, creating a comprehensive financial support network for students.

3. Real-Time Information:

- Students have access to updated information on scholarships and bursaries, making it easier for them to inquire and apply for financial support.

Tuition and Fee Exemptions

1. Exemptions:

- NCUT offers fee exemptions to economically disadvantaged students, further reducing their financial obligations.

2. Student Loans and Aid:

- The university participates in loan programs and student aid initiatives, ensuring that students can cover essential costs like tuition.

Living and Study Subsidies

1. Subsidies and Donations:

- NCUT integrates internal and external donations to offer subsidies for living expenses, allowing students to focus more on their studies.

2. **Respect for Student Choices:**

- Financial constraints do not limit students' academic decisions, as NCUT respects their subject preferences while offering financial support.

Assistance for Disabled Students and Delayed Graduates

1. **Eligibility:**

- Students with disabilities who face delayed graduation are eligible to apply for economically disadvantaged student status.

2. **Application Process:**

- Students apply through the online platform, submitting necessary forms, including a disability certificate. The process involves approval from instructors and further review by the Planning Office of the R&D Department.

3. **Flexible Study Options:**

- The "Flexible Study Pilot Program" allows working students to complete credits over an extended period (up to 10 years), providing flexibility for those balancing work and studies.

Monitoring and Support Systems

1. **Committee for Economically and Culturally Disadvantaged Students:**

- This committee oversees the implementation of support programs and continuously evaluates their effectiveness to ensure they meet students' needs.

2. **Evaluation and Continuous Improvement:**

- NCUT regularly assesses the impact of its financial aid programs, leading to increased enrollment of economically disadvantaged students and improved academic performance.

Additional Support and Programs

1. **Corporate and Alumni Fundraising:**

- NCUT actively engages with corporate partners and alumni networks to raise funds, ensuring sustained financial support for its students.

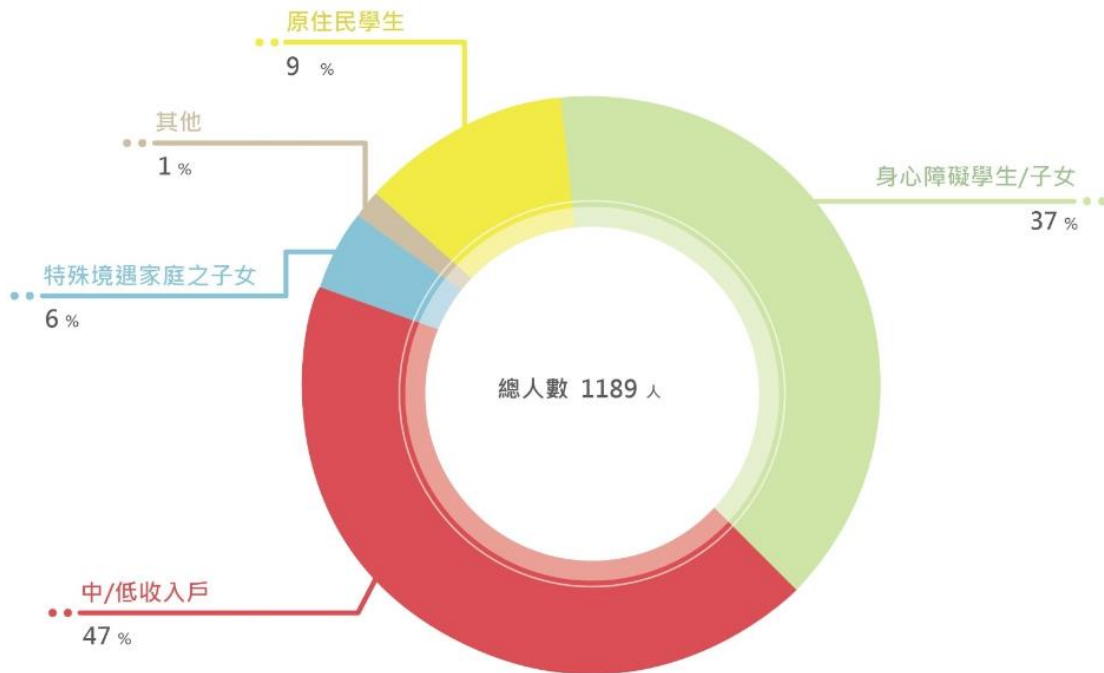

2. **Certification and Graduation Mechanism:**

- Through flexible academic programs, students can accumulate credits over several years and graduate once they meet all requirements.

By implementing these comprehensive initiatives, NCUT ensures that economically disadvantaged students, including those with disabilities, receive the support they need to thrive academically. The university's efforts reflect its commitment to an inclusive, accessible, and supportive learning environment.
