[SDGs 4] Quality Education 教育品質

[4.3.2] Does your university as a body host events at university that are open to the general public: public lectures, community educational events?

NCUT hosts various events that are open to the general public, fostering connections between the university and the broader community. These events often align with the institution's focus on sustainability, technology, and education. Below are some examples of public events hosted by NCUT:

1. Conferences and Academic Forums

NCUT organizes forums and symposiums that are accessible to professionals, scholars, and the public. For example:

- **Hydrogen Energy and Fuel Cell Forum (2024):** This event featured international experts and addressed developments in green energy technologies, attracting attendees from industry, government, and academia.

2. Technology and Innovation Events

- **National Student Cup Hydrogen Vehicle Competition:** Held annually, this competition allows the public to observe students competing with hydrogen-powered vehicles, promoting green energy awareness and inspiring young innovators.

3. Workshops and Seminars

NCUT frequently hosts **workshops, training programs, and public lectures** on topics such as sustainability, energy management, and environmental conservation. These programs are often co-organized with industry partners or local government agencies to benefit both students and the general community.

4. Cultural and Community Engagement Activities

- NCUT occasionally holds **art exhibitions, cultural festivals, and recreational events** on campus, inviting local residents to participate and engage with students and faculty.

5. Open House and Outreach Events

The university conducts **open house events** where the public can explore its facilities, research initiatives, and student projects, promoting knowledge exchange and fostering community relationships.

NCUT Digital Learning Buddy Activities

To improve local education and fulfill its educational mission, NCUT collaborates with the Ministry of Education's Digital Learning Partner Program. The initiative recruits undergraduate, master's, and doctoral students to participate each semester, focusing on fostering a sense of responsibility and enthusiasm for teaching.

Participant Responsibilities:

Students involved in the program work to care for, accompany, and teach primary and secondary school children. This mutual learning and support aim to create meaningful experiences for both the children and the college students.

Teaching Targets:

- **Target Group:** Children in grades three to six in rural primary and secondary schools.
- **Method:** One-to-one online distance video teaching.
- **Content:** Chinese, English, Mathematics, and subjects that college students excel in, along with general study accompaniment for primary school students.

Service Rights and Obligations:

1. Training:

- Initial training courses.
- Regular training sessions.
- Physical meeting activities with primary school companions.

2. Compensation:

- 500 NTD service learning fund per class (1.5 hours of class + lesson preparation, filling in teaching logs).
- The fund is allocated based on the actual number of classes attended.

This program not only provides academic **support to children in rural areas** but also **enriches the teaching and learning experience for college students**, helping them develop their skills and leaving a lasting impact on their lives.

112-1教育部數位學伴計畫

大學伴招募

關懷與陪伴孩童，大、小學伴互相陪伴與學習付出，讓你的大學生活留下精彩的一頁歡迎加入勤益數位學伴的行列！

報名方式：線上報名表單填寫。(掃描QR CODE)

大學伴招募對象：勤益科技大學在學學生，
大學、碩、博士生皆可，不限科系、年級，具責任感及教學熱忱。
(外籍學生需具工作證；陸生依規定，無法參與計畫，敬請見諒。)

教學對象：偏鄉地區中小學學童三~六年級
(一對一線上遠距視訊教學)。

教學內容：國、英、數及大學伴擅長科目、陪伴小學伴學習。

教學時間：每次上課1.5小時課程，共10週課程。

開課日期：112.10.02(星期一)開始上課。

大學伴服務權利及義務：
期初培訓課程及定期培訓、與小學伴實體見面活動等、每堂課(1.5小時上課+備課與填寫教學日誌)500元服務學習金
(依實際出席堂數支領)，可另選擇服務時數，不支領學習金。

服務證明：服務期滿且全程參與培訓、課程及活動者並繳交
教學成果相關檔案者，頒發服務證明。

NCUT Assists in Organizing the 1st Taichung City Aboriginal Tourism Industry Forum Seminar in 2024

In 2024, global efforts to revitalize tourism economies have been reignited. Taiwan's industry, government, and academia are reinvesting resources to restart the island's tourism resources, welcoming international tourists, and bolstering the indigenous tourism industry. On

Wednesday, June 26, the 2024 First Taichung City Aboriginal Tourism Industry Forum Seminar was held at the Weige International Convention Center. Guided by the Aboriginal Peoples Committee, the Tourism Administration of the Ministry of Transportation, and the Taichung City Government, and hosted by the Huaxia International Culture, Tourism, and Tourism Association, the event saw the participation of NCUT scholars and professors. Their contributions focused on the indigenous cultural industry, specifically supporting the development of Taiwan's indigenous industries.

Taiwan is home to 16 officially recognized ethnic groups, each with unique cultural characteristics. These groups have reclaimed and regularly celebrate their traditional cultural rituals, integrating these elements into daily life and tourism attractions. This seminar aimed to address urban indigenous issues, stimulate tribal characteristics, and promote the slow-paced, leisure-oriented "tribal learning" tourism model. Key urban indigenous areas, such as "Wufeng Huadong New Village" and "Taiping Ziqiang New Village" in Taichung City, were highlighted.

Keynote Speeches:

- **Chen Yuzheng, Deputy Director of the Tourism Bureau:** Emphasized the Bureau's commitment to promoting tribal cultural tourism. He discussed plans for tribal itineraries, the integration of tourism resources from various counties and cities, and the marketing of Taiwan's tourism characteristics. The aim is to boost the tourism output value of indigenous industries and provide new international travel options.
- **Legislator Huang Ren:** Stressed the need for the integration and development of urban indigenous industries. He highlighted government efforts to revitalize agricultural and fishery industries, promote national tourism, and support the indigenous economy. Huang advocated for international exchanges and cooperation to enhance Taiwan's cultural tourism and economic benefits.

Discussion Themes:

1. Tourism and Urban Orientation:

- Current policies and their implications.
- Development of tourism e-commerce.
- Indigenous cultural and creative industries in urban areas.
- Integration of tribal cultural and tourism marketing.

2. Interactive Sessions:

- Scholars and guests engaged in interactive Q&A sessions to propose solutions and measures for developing favorable economic conditions for Taiwan's indigenous peoples.

Goals: The seminar aimed to:

- Effectively integrate and plan indigenous industries.
- Develop and upgrade tribal indigenous industries across the country.
- Promote cultural tourism through international exchanges and cooperation.
- Support the economic development of Taiwan's indigenous communities, improving their quality of life.

NCUT's involvement in this forum highlights its commitment to fostering academic and cultural collaborations that benefit Taiwan's indigenous populations and broader tourism economy.
